thereafter.

JOHN PEREGRINE,
East Gwillimbury, Feb. 16, 1859. 15-41

Poetry.

LABOR.
Toll swags the axe and forests bow;
The seeds break out to radiant bloom;
Rich harvest smiles behind the plow;
And cities cluster round the loom.
Where tilling dunes and tapering spires,
Adorn the vale and crown the hill,
Stout labor lights its beacon fire,
And plumes with smoke the forge and mill.

The roush oak, the woodland's pride,
Whose trunk is crowned with lightning scars;
Tall larches on the restless tide,
And there amidst the flag of stars;
The engine with its lungs of flame,
And ribs of brass and joints of steel,
From Labor's plastic fingers came,
With rizzling valve and whirling wheel.

'Tis labor works the teeming press,
And turns the crumb to lives of toil,
And beckons angels down to bless
Industrious hands on sea and soil.
Here unobtruded toil with ruler spade,
Links like to links with silver wire,
Shaping thick with palaces of trade,
And temples towering to the skies.

'Tis labor works the teeming press,
And turns the crumb to lives of toil,
And beckons angels down to bless
Industrious hands on sea and soil.
Here unobtruded toil with ruler spade,
Links like to links with silver wire,
Shaping thick with palaces of trade,
And temples towering to the skies.

'Tis labor works the teeming press,
And turns the crumb to lives of toil,
And beckons angels down to bless
Industrious hands on sea and soil.

Poetry.

NEW ADVERTISEMENTS.

REMOVAL.

THE Subscriber begs to notify his Customers and the public generally that he has removed from his late stand, No. 17, Church Street, to No. 3, Main Street, King Street West, &c.

In a short time, he will make a considerable addition to his stock, already consisting of a large variety of Watches, Clocks, and Jewellery.

With his now largely increased facilities for the Repairing and Manufacturing of everything in his line, he hopes, by moderate charges and a constant endeavour to give satisfaction, to receive a continuance of the patronage with which for the last seven years he has been favoured.

H. B. - Personal Attention given to the Repairing of Watches, Clocks, &c.

Wm. WHITMAN,
3, Main Street,
Toronto, April 20, 1859.

A CARD.

THE subscriber respectfully intimates to the Ladies and Gentlemen of Newmarket and vicinity, that he will open, in connection with his Laboratory, about the 10th of May, a

PORTRAIT GALLERY.

Meanwhile he purports visiting the United States to make a collection of material and apparatus, of the new and latest styles.

R. W. GRISWOLD,
Newmarket, April 18, 1859.

CREDIT SALE.

PUBLIC AUCTION.

By the Auctioneers of O. FORD,
On SATURDAY, APRIL 30, 1859,

M. W. BOGART,
Newmarket, March 17, 1859.

VALUABLE FARM FOR SALE.

IN THE Township of East Gwillimbury, BEING Lot No. 25, on Union Street, 4th Concession, and distant two and a half miles from the VILLAGE OF QUEENSVILLE,

Containing 185 Acres of excellent land,—of which 100 Acres are cleared—well fenced with Cedar, and under a high cultivation,—with good

DWELLING HOUSE, TWO COTTAGES, Two large Barns and Extensive Sheds, a Stable for Cattle and Horses, a large Cider Mill, a large Building—all frame, new, and of the best construction. The above is one of the best

Grain and Grazing Farms North of the Oak Ridge. A large portion of the land is underdrained with tile work, and the whole laid out in 100 Acres. Two Good Wells, and sufficient supply of water for the farm for Stock, at all seasons.

For further particulars, apply to the undersigned, or to the owner, Mr. J. W. Willcock, at his residence, Holland Landing, April 7, 1859.

MEAT! MEAT!

THE Subscriber takes this opportunity of tendering his sincere thanks to his Customers for the liberal manner in which they have supported him during the last three years, and trusts his continued exertions to merit their patronage will meet with the same generous support from them.

He also begs to state, that on and after this date, his business will be conducted strictly on the Cash Principle, which will enable him to sell the best article at the very lowest prices.

JOHN STERLAND,
Sharon, April 6, 1859.

PLANK HOUSE.

THE subscriber offers for Sale that valuable plank house situated in the Village of East Gwillimbury, on the 4th Concession, and distant two and a half miles from the Village of Queensville, and under a high cultivation,—with good

PHOTOGRAPHY,

WRITING BY SOUND!!

PHOTOGRAPHY was invented by ISAAC PITMAN, of Bath, England, in the year 1837. It is the most simple, most natural, most rapid, and most easily-learned system of Writing which has ever been, or ever can be invented.

During the past fifteen years, hundreds of thousands of persons, in England and America, in both public and private life, have learned to write. Photography, and thousands of business letters annually pass through the post office.

Not is its great popularity to be wondered at. The present system of writing is exceedingly cumbersome, and totally unworthy these days of progress and invention. Photography is equally as legible, can be learned in one-twentieth the time, and can be written six times as fast. In writing words, the labor of six days can be performed in one—any man can do the work of six! So simple is the system, too, that a person may learn to write it slowly, in a couple of hours. An hour's daily practice for a few weeks will enable any person to write Photography with certainty, and with some degree of freedom. The same amount of practice continued for six months will enable a person to take reports of speeches, lectures, sermons, or conversation, and to read them with accuracy.

Dr. J. W. Stone, of Boston, says: "I learn Photography on an invaluable adjunct to education, and one which, when acquired in youth, would not be parted with in manifold for thousands of dollars."

The late Hon. THOMAS H. BENTON, upon being presented with a verbatim report of one of his masterly speeches, taken by a little boy of ten years of age, said: "Had this report been known 40 years ago it would have saved me 20 years hard labor!" The learned reporter spoke but a portion of the truth. What long-hand requires six years to accomplish, Photography will perform in one.

To Clergymen, Editors, Lawyers, School Teachers, Merchants, School Boys and Girls.

A knowledge of Photography is of vast utility. In fact there is no profession or calling in which it is not useful, and no young man's education can be considered complete without it.

During the past nine months hundreds of persons in Canada, of every pursuit in life, have acquired the Art, from many of whom the subscriber has received neatly-written photographic letters, expressive of their delight with the attainment, and the extraordinary ease with which they have acquired it.

For the purpose of aiding in the dissemination of so important a reform in his own country, the subscriber is now prepared to supply all who apply, with the Manual of Photography, and the Photographic Copy Book, sent by mail to any part of the Province, postage paid, for the small sum of

ONE DOLLAR.

Anybody and everybody, who can learn anything, can learn Photography from the Manual, without other assistance.

Those who wish to be able to put their thoughts to paper at the rate of from 100 to 250 words per minute, should send for the above-mentioned work at once.

The inspection given by the manual is as plain as A. B. C., and ten times easier to understand.

"THE CANADIAN PHONETIC PRIMER" is a Monthly Journal, devoted to the advocacy of the Reform. Price 25cts per annum.

Address, (post-paid), WILLIAM H. ORR,
Canada, C. W.

Prepared by E. W. GRISWOLD, Chemist, Newmarket, C.W.

From the original receipt, to whom all orders must be directed.

For Sale, in Newmarket, by Dr. Bentley and Nash, Chemists and Druggists, and by all respectable Druggists and Store-keepers throughout the country.

Three Shillings—PRICE 25cts, 50cts, and 1 dollar

Amusements.

Much smoking kills live men and cures dead wives.

When is the soup likely to run out of the saucepan? When there is a leak in it.

The reason why some people put on airs is because they have nothing else to put on.

Why are printers liable to be cold? Because they always use damp sheets.

Fast men like fast rivers, are generally the shallowest.

A philosopher resembles a cucumber—when most cut up he is perfectly cool.

A disappointed lover down east, lately hung himself with a string of beads.

The sunshine of life is made up of very few beams that are bright all the time.

He that knows useful things, and not he that knows many things is the wisest.

There is no landing on the shore of felicity without sailing on the bark of folly.

The boy who lost his balance on the roof of a house found it on the ground shortly afterwards.

Don't harrow up my feelings, as the worm said when the plough was passing over him.

Why are blacksmiths the most discontented of tradesmen? Because they are always on the strike for wages.

Be sure to smother a woman who will lift you up instead of putting you down. In mercantile phrase, get a piece of calico that will wash.

A merchant lately advertising for a clerk who could bear confinement, received an answer from one that had been seven years in jail.

A Quaker being asked his opinion of Phrenology, replied, "Friend, there can be no good in a science that compels a man to take off his hat."

It is a good sign to see a man wiping the perspiration from his face; it is a bad sign to see a fellow wiping his mouth as he comes out of a cellar.

He who believes that a man can think himself into thought is not likely to doubt the old story that ostriches hatch their eggs by just looking at them.

JOSEPH TERRY. 11-1

Newmarket, Feb. 15, 1859.

Diseases of the Lungs and Heart.

DR. WANLESS, EUROPEAN PHYSICIAN, AND Member of the College of Physicians and Surgeons of Lower Canada.

HAS adopted Toronto as his headquarters, and will, in future, reside at

No. 96, YONGE STREET, TORONTO.

(Opposite Moffat's Foundry.)

For the purpose of giving his special attendance to

DISEASES OF THE

HEART AND LUNGS.

The diseases of the human body are numerous, and often complicated, but no one man, who acts as a general practitioner, can be proficient in the treatment of them all. Division of labor, in the practice of medicine, has become necessary for the benefit of the patient, and it is in this office, Dr. Wanless, who, long ago, to reflect the diseases of the Lungs and Heart as his special study, from the circumstance of his having lost two beloved children, one of whom died from tubercular deposit in the lungs, and the other from consumption; the other from disease of the Lungs and Heart, he has devoted his whole life to the study of these diseases, and has acquired a profound knowledge of them, and is now prepared to give his special attendance to them, and to treat them in the most efficient manner, and to cure them in the shortest time, and on the most reasonable terms.

A WORD OF ADVICE.

Many people who are not prepared to follow the instructions given them in every particular.

None but Office Practice can be attended to.

For further particulars, address DR. WANLESS, Post Office Toronto. Unpaid letters not received.

Hours of Consultation, from 10 o'clock A. M. to 5 P. M.

Rate the address—

PATENT HORSE RAKE.

INVENTED BY

Mr. R. Lounsbury and Improved by Mr. F. G. Wilton.

THE undersigned is prepared to sell the Right to manufacture the above Rakes, or make them to order, at the lowest price. Their superiority over every other description of Horse Rake ever brought before the public, renders it useless to give further particulars. Price, \$7.

Models can now be seen at the shops of the undersigned in Newmarket.

Wm. V. SOUTHWARD, ROBERT MURRY.

N.B.—Parties desirous of purchasing a rake or of having the right to manufacture, residing on the East side of Yonge Street in the County of York, to apply to W. V. Southward, or on the West side of Yonge Street, in said County, or in the Township of West Gwillimbury and Tecumseh, in the County of Simcoe, to apply to Mr. Murry. Newmarket, Feb. 2, 1859. 11-2

FISH! FISH! FISH!

THE undersigned respectfully informs the public that having made arrangements with parties in Collingwood he will be prepared to supply fresh Collingwood mackerel, to those who may require the same.

THOMAS NIXON.

Newmarket, Dec. 5, 1858.

"Equitable" Fire Insurance Company OF LONDON.

CAPITAL, £500,000 STERLING.

General Agent, British North American Colonies FREDERICK R. STARR.

MONTREAL.

This Office insures against Loss or Damage by Fire, all descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares and Merchandise in the same; Ships in Harbour or in dock; Craft on Navigable Rivers and Canals; and the Goods laden in the same; and Farming Stock of all descriptions.

The "Equitable" Fire Office will, by constant analysis of its own experience from time to time, adopt such rates of Premiums as the nature of the risk may justify.

With this view, an annual investigation will be made into each class of risk, and a return of one moiety of fifty per cent—of the net excess will be made to all classes of Insured, whose Policies have been in force for three years.

The engagements of the "Equitable" are guaranteed by a responsible proprietor, and an ample subscribed Capital. The insured are free from the liabilities of a Mutual Insurance Society, and entitled, according to the plan of the Company, to a return of half the profits.

Losses are made good without deduction or discount, and are adjusted and paid in promptitude, without reference to London.

R. H. SMITH, Agent, Newmarket.

March 12, 1859. 11-5

NEW REMEDIES AND QUICK CURES.

For the Venereal Disease and all Private Complaints—glands, stricture, seminal weakness, pains in the lower affection of the kidneys, fistula of the head and throat, nose, and skin, and all those dreadful affections arising from a secret habit of youth, which produces constitutional debility, renders marriage impossible, and in the end destroys both body and mind. The treatment they adopt is the result of upwards of thirty years' extensive and successful practice in London.

A Most Scientific Institution.

An instrument for the cure of Genital Debility, or Nocturnal Emissions, now properly known as Seminal Weakness, &c., can be permanently cured in from fifteen days to two months by the use of this instrument, when used conjointly with medicines.

Young Men, take Particular Notice.

DR. AMOS & SON take pleasure in announcing that they have invented a most important instrument for the cure of the above diseases. It has been subjected to a test by the most eminent physicians in London, Paris, Philadelphia, and New York; it has been declared the only useful instrument ever invented for the cure of Seminal Weakness, or any disease of the genital organs, caused by the secret habits of youth. DR. AMOS & SON, in order to satisfy the most skeptical as to the merits of this instrument, pledge themselves that in any instance where it may prove unsatisfactory after a fair trial, the money will be refunded by returning the instrument to the dealer.

Persons wishing the above useful instrument will observe that the price, with the accompanying directions securely packed and sent by express, is ten dollars.

NEW REMEDIES AND QUICK CURES.

The treatment they adopt is the result of upwards of thirty years' extensive and successful practice in London.

A Most Scientific Institution.

An instrument for the cure of Genital Debility, or Nocturnal Emissions, now properly known as Seminal Weakness, &c., can be permanently cured in from fifteen days to two months by the use of this instrument, when used conjointly with medicines.

Young Men, take Particular Notice.

DR. AMOS & SON take pleasure in announcing that they have invented a most important instrument for the cure of the above diseases. It has been subjected to a test by the most eminent physicians in London, Paris, Philadelphia, and New York; it has been declared the only useful instrument ever invented for the cure of Seminal Weakness, or any disease of the genital organs, caused by the secret habits of youth. DR. AMOS & SON, in order to satisfy the most skeptical as to the merits of this instrument, pledge themselves that in any instance where it may prove unsatisfactory after a fair trial, the money will be refunded by returning the instrument to the dealer.

Persons wishing the above useful instrument will observe that the price, with the accompanying directions securely packed and sent by express, is ten dollars.

NEW REMEDIES AND QUICK CURES.

For the Venereal Disease and all Private Complaints—glands, stricture, seminal weakness, pains in the lower affection of the kidneys, fistula of the head and throat, nose, and skin, and all those dreadful affections arising from a secret habit of youth, which produces constitutional debility, renders marriage impossible, and in the end destroys both body and mind. The treatment they adopt is the result of upwards of thirty years' extensive and successful practice in London.

THE HIGHEST MARKET PRICE PAID FOR FARM PRODUCE!

Newmarket, October 14th, 1858. 11-35

DR. MORSE'S INDIAN ROOT PILLS.

CAUTION.

Merchants and Traders will be on their guard and not be imposed upon by a Counterfeit of Dr. Morse's Indian Root Pills, signed A. B. Morse. All genuine Pills hereafter have the name and signature of B. LAKE JUDSON, (successor to A. J. White & Co.) on each box.

All orders and letters relating to said Pills, must be addressed to B. LAKE JUDSON, No. 60 Leonard Street, New York, role proprietor of Dr. Morse's Indian Root Pills.

(Successor to A. J. White & Co.) No. 50 Leonard Street, New York.

Dr. MORSE, the inventor of MORSE'S ROOT PILLS, has spent the greater part of his life in travelling, having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country—It is in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health, and life depends upon this vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and discolored, and contains all the elements of disease. It is in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health, and life depends upon this vital fluid.
